

Area 22

Monday Meeting 01/04

01 April 2019 / 15:36 / ROOM IZ-1

ATTENDEES

Nathan, Lukas, Nick, Jari, Ardy, Johannes

STAND UP MEETING

- Lukas did the C02 returning class.
- Nick did the final report, as well as the GUI.
- Jari did the final report, corrected the other's grammar, started working on final presentation
- Ardy worked mainly on the AddFriend function, works almost perfectly now.
- Nathan worked on Heroku, had problems setting it up, integrated Lukas's work into the GUI perfectly.
- Johannes worked on the Leaderboard and text fields.

DEMO THOUGHTS OF KHALED

- We have enough features.
- Overview/My Profile window needs to close when you log out.
- Increase max points for the C02 numbers maybe.
- "Looks good, nice job!"
- Barebones requirements are met.
- Achievements should be added for extra points.

NOTES FROM KHALED

- Might have to hand in report on Brightspace.
- Will get points for running on raspberry pi, even more if CD works on it.

NOTES LAST WEEK GOALS

- Github has been cleaned to a certain extent by Nathan.
- Nick works on the “auto close my profile log out” window bug.
- Jari worked on Checkstyle, not done yet.
- Trees work, achievements are still to come.
- Ardy will make the tree images transparent.
- Ardy “we should finish the app in the next two days, then work on testing”
- Johannes “work on branch coverage to 70% before working on Checkstyle”

ACTION ITEMS

1. Get everyone to run the server/client on their own machine.
2. Nathan/Lukas write self-reflection at least 200 words.
3. Johannes/Ardy need to have a running JaCoCo (nathan is gonna help)
4. Encrypt password. (Nathan takes a look at it)
5. Nathan/Jari going to do the presentation.

NOTES from Khaled

- 70% is the bare minimum for testing.
- Checkstyle should absolutely (not mandatory) get below 20.
