Things to talk about
- Did GitLab got cleaned up?
- Full application and Demo
- Checkstyle errors
- Real values (CO_2)
- Final report
- Presentation
- Testing
- Implementation of images

What to do before next week
- Test coverage up to 70% at least (average)
- Checkstyle errors fixing
- Final report draft (Thursday)
- Presentation ready
- Last points on the ï

Deliverables/goals
- Reduce checkstyle errors.
- Finished main screen.
- Again, a nice, clean GitLab.
- Presentation
- Final report
- Test with at least an average of 70%

Points last week
- Still further clean up GitLab. It still contains some unnecessary files/folders.
- Work on the GUI main screen.
- Check if everything we have right now works 100% correctly, BUG FREE. If not, fix those bugs.
- Reduce amount of checkstyle errors.
- Work on finishing the application. Making sure every feature that is needed is present in the app.
